the concession. Of the remainder of the \$40,000,000, 40 per cent. is to be paid into the Bank of France, to the credit of the new company, and 60 per cent. to the credit of the liquidator of the old company, as provided by the decree of the French courts confirming the award of the arbitrators.

As this arrangement was made for the accommodation of the French parties, all expenses incident thereto are borne by them, and the United States is protected from all costs whatever.

Stated concisely, the arrangement is that the French interests accept our deposit with Morgan & Co. as equivalent to payment for all purposes of delivery of the property.

The Panama Canal Company in liquidation has given a mandate, or power of attorney, to Rendaudin, or his representative on the isthmus, with complete instructions concerning the delivery of their property. This document was cabled similarly to Maj. Brooks, who was designated by the Honorable Secretary of War for that purpose to act for the government in accepting delivery.

The canal company has likewise placed at the disposal of the United States the personnel of the organization upon the isthmus for the purpose of temporary service in the preservation of the works and property pending the preparations by the Canal Commission to undertake active operations.

I have notified the commission of the situation and nothing remains to be done, except to take possession of the property and direct the deposit of the consideration with Morgan & Co., in accordance with the terms of the contract.

Yours respectfully,
H. C. KNOX,
Attorney-General.

In connection with these payments it is said at the Treasury Department that Morgan & Co. will be designated as disbursing agents of the government, and following the invariable rule in such cases, they will be required to deposit \$40,000,000 in bonds security to the government. The payment will be made as soon as the bonds have been received, which probably will be in a day or two.

TOOK FORMAL POSSESSION.
BY THE ASSOCIATED PRESS-A.M.

PANAMA, April 4.—The United States Canal Commission today took formal possession of the canal route and of the property of the Panama Canal Company. From today, the canals will be under the direction of Maj. Mark Brooks, of the Engineers Corps of the United States army, who represented the Canal Commission at the ceremony of the transfer. Immediately after the transfer the United States flag was hoisted over the legation and over the canal offices on the Cathedral plaza.

REJECTS GOLD STANDARD.
BY THE ASSOCIATED PRESS-A.M.

PANAMA, May 4.—The proposal before the Assembly that Panama should adopt the United States gold standard was rejected after an extended discussion by 16 votes to 13. The government and the opposition parties did not act as units.

THE \$10 SYSTEM, will be proposed today, the government to issue two million silver dollars, \$100 fine, depositing enough money with the United States to guarantee the difference between the actual and the nominal value of the issue.

STAVING OFF DISSOLUTION.
BY THE ASSOCIATED PRESS-A.M.

PANAMA, May 4.—The proposal before the Assembly that Panama should adopt the United States gold standard was rejected after an extended discussion by 16 votes to 13. The government and the opposition parties did not act as units.

Charles W. Johnson of Minnesota was agreed upon as general secretary of the convention. The committee also agreed to recommend John R. Mallory of Ohio as assistant secretary, seven other assistant secretaries, including Walter S. Millik of California; five reading clerks, a clerk at the President's desk, an official reporter, two typists, a messenger to the chairman, a sergeant-at-arms, and assistant and a chief of doorknobs.

Al with the exception of Millik named as one of the assistant secretaries, are from east of the Missouri River.

RATES TO CHICAGO.
BY THE ASSOCIATED PRESS-P.M.

WASHINGTON, May 4.—It was decided that each delegate to the convention would be apportioned one gallery ticket in addition to the ticket of admission to the floor. A report was received from the Central Traffic Association, saying that a rate equal to the fare one way for round-trip tickets would be made to and from Chicago the time to be good during June 16 to June 29, returning good until June 22.

The sergeant-at-arms will open quarters at the Coliseum June 1, to attend to all further preliminaries of the convention.

The local committee in Chicago was designated to select the chaplain to offer prayer, it being expected that the convention would be in session three days and three different ministers will be chosen.

There are some vacancies among the minor temporary officers which will be filled with bonhomie, the end of the guests' places and women above, a place a cluster was especially marked by brass plates, dark wood, and a large mahogany fern arranged in such a manner in a bed of the daintiness of a compact was entered into between Joseph Chamberlain and Premier Balfour, the aim of which appears to be the staving-off of a dissolution of Parliament. Mr. Chamberlain will be an amendment simply expressing confidence in the policy of the government. As all of Chamberlain's supporters will vote for his amendment, the government is assured of a victory.

MONUMENT TO LINCOLN.

Present agitation for one at Washington calls attention to former fund.

BY DIRECT WIRE TO THE TIMES;
WASHINGTON, May 4.—[Exclusive Dispatch.] The present agitation for the erection in this city of a monument to Abraham Lincoln has called attention to the fact that nearly forty years ago a similar movement was authorized by Congress, and has caused inquiry as to what has become of a sum estimated at \$100,000 which was raised by popular subscription but never expended to build the monument. It was provided that unless the monument was completed in four years, the subscriptions should be returned, but, so far as known, no money was returned.

An imposing certificate in the form of a receipt for subscriptions was engraved and printed at the Bureau of Engraving and Printing, and apparently popular subscriptions were limited to \$1 each as the words "One Dollar" were made a part of the engraving.

The receipts were signed by the treasurer of the association, Gen. F. E. Spinner, who at that time was also Treasurer of the United States. If the law was strictly complied with, the full amount of \$100,000 must have been subscribed, as the records show that twelve bronze guns were issued to the association, under the act approved June 25, 1868. This act provided that no metal guns should be thus appropriated until voluntary subscriptions amounted to \$100,000.

EDWARD AND ALEXANDRA.
BY DIRECT WIRE TO THE TIMES;
OMAHA, May 4.—[Exclusive Dispatch.] Leading Democrats of the State convention endorsed Roosevelt for President, elected delegates who were instructed to vote for Roosevelt's nomination, named Presidential electors, nominated a full State Congress and judicial ticket, and at 7 o'clock adjourned sine die, after being in session about six hours.

The State ticket: Governor, H. E. Edmundson; Lieutenant Governor, J. E. McDougal; Marshal, Secretary of State, D. D. Wipf; Hutchinson; State Treasurer, C. B. Collins; State Auditor, J. P. Hailiday; Kingsbury; Attorney General, Philip Hall; Brooking.

J. M. Greene of Chamberlain was elected South Dakota's member of the national committee. Congressmen Burke and Martin were nominated for reelection.

ments—"Hearstism."

BY THE ASSOCIATED PRESS-A.M.

WASHINGTON, May 4.—An informal conference between leading Republicans in the Senate and the President, in the nature of a continuation of the conferences which have been held nearly every day or night since the adjournment of Congress, was held today. Senators Allison, Culom and Spooner were with the President a considerable time, later, they were joined by Secretary Cortelyou.

The canal company has likewise placed at the disposal of the United States the personnel of the organization upon the isthmus for the purpose of temporary service in the preservation of the works and property pending the preparations by the Canal Commission to undertake active operations.

I have notified the commission of the situation and nothing remains to be done, except to take possession of the property and direct the deposit of the consideration with Morgan & Co., in accordance with the terms of the contract.

Yours respectfully,
H. C. KNOX,
Attorney-General.

In connection with these payments it is said at the Treasury Department that Morgan & Co. will be designated as disbursing agents of the government, and following the invariable rule in such cases, they will be required to deposit \$40,000,000 in bonds security to the government. The payment will be made as soon as the bonds have been received, which probably will be in a day or two.

TOOK FORMAL POSSESSION.
BY THE ASSOCIATED PRESS-A.M.

PANAMA, April 4.—The United States Canal Commission today took formal possession of the canal route and of the property of the Panama Canal Company. From today, the canals will be under the direction of Maj. Mark Brooks, of the Engineers Corps of the United States army, who represented the Canal Commission at the ceremony of the transfer. Immediately after the transfer the United States flag was hoisted over the legation and over the canal offices on the Cathedral plaza.

REJECTS GOLD STANDARD.

PANAMA, May 4.—The proposal before the Assembly that Panama should adopt the United States gold standard was rejected after an extended discussion by 16 votes to 13. The government and the opposition parties did not act as units.

THE \$10 SYSTEM, will be proposed today, the government to issue two million silver dollars, \$100 fine, depositing enough money with the United States to guarantee the difference between the actual and the nominal value of the issue.

STAVING OFF DISSOLUTION.
BY THE ASSOCIATED PRESS-A.M.

PANAMA, May 4.—The proposal before the Assembly that Panama should adopt the United States gold standard was rejected after an extended discussion by 16 votes to 13. The government and the opposition parties did not act as units.

Charles W. Johnson of Minnesota was agreed upon as general secretary of the convention. The committee also agreed to recommend John R. Mallory of Ohio as assistant secretary, seven other assistant secretaries, including Walter S. Millik of California; five reading clerks, a clerk at the President's desk, an official reporter, two typists, a messenger to the chairman, a sergeant-at-arms, and assistant and a chief of doorknobs.

Al with the exception of Millik named as one of the assistant secretaries, are from east of the Missouri River.

RATES TO CHICAGO.
BY THE ASSOCIATED PRESS-P.M.

WASHINGTON, May 4.—It was decided that each delegate to the convention would be apportioned one gallery ticket in addition to the ticket of admission to the floor. A report was received from the Central Traffic Association, saying that a rate equal to the fare one way for round-trip tickets would be made to and from Chicago the time to be good during June 16 to June 29, returning good until June 22.

The sergeant-at-arms will open quarters at the Coliseum June 1, to attend to all further preliminaries of the convention.

The local committee in Chicago was designated to select the chaplain to offer prayer, it being expected that the convention would be in session three days and three different ministers will be chosen.

There are some vacancies among the minor temporary officers which will be filled with bonhomie, the end of the guests' places and women above, a place a cluster was especially marked by brass plates, dark wood, and a large mahogany fern arranged in such a manner in a bed of the daintiness of a compact was entered into between Joseph Chamberlain and Premier Balfour, the aim of which appears to be the staving-off of a dissolution of Parliament. Mr. Chamberlain will be an amendment simply expressing confidence in the policy of the government. As all of Chamberlain's supporters will vote for his amendment, the government is assured of a victory.

MONUMENT TO LINCOLN.

Present agitation for one at Washington calls attention to former fund.

BY DIRECT WIRE TO THE TIMES;
WASHINGTON, May 4.—[Exclusive Dispatch.] The present agitation for the erection in this city of a monument to Abraham Lincoln has called attention to the fact that nearly forty years ago a similar movement was authorized by Congress, and has caused inquiry as to what has become of a sum estimated at \$100,000 which was raised by popular subscription but never expended to build the monument. It was provided that unless the monument was completed in four years, the subscriptions should be returned, but, so far as known, no money was returned.

An imposing certificate in the form of a receipt for subscriptions was engraved and printed at the Bureau of Engraving and Printing, and apparently popular subscriptions were limited to \$1 each as the words "One Dollar" were made a part of the engraving.

The receipts were signed by the treasurer of the association, Gen. F. E. Spinner, who at that time was also Treasurer of the United States. If the law was strictly complied with, the full amount of \$100,000 must have been subscribed, as the records show that twelve bronze guns were issued to the association, under the act approved June 25, 1868. This act provided that no metal guns should be thus appropriated until voluntary subscriptions amounted to \$100,000.

EDWARD AND ALEXANDRA.
BY DIRECT WIRE TO THE TIMES;
OMAHA, May 4.—[Exclusive Dispatch.] Leading Democrats of the State convention endorsed Roosevelt for President, elected delegates who were instructed to vote for Roosevelt's nomination, named Presidential electors, nominated a full State Congress and judicial ticket, and at 7 o'clock adjourned sine die, after being in session about six hours.

The State ticket: Governor, H. E. Edmundson; Lieutenant Governor, J. E. McDougal; Marshal, Secretary of State, D. D. Wipf; Hutchinson; State Treasurer, C. B. Collins; State Auditor, J. P. Hailiday; Kingsbury; Attorney General, Philip Hall; Brooking.

J. M. Greene of Chamberlain was elected South Dakota's member of the national committee. Congressmen Burke and Martin were nominated for reelection.

SAN FRANCISCO, May 4.—The
feature of the Hyde-Diamond land
fraud hearing today was the cross-ex-
amination of Diamond by the govern-
ment's attorney.In his direct testimony, Diamond
swore positively that he had never
seen those sections of the code of
California dealing with the selection
of and application for State school
lands, that he was not even acquainted
with them and that he had no idea
what Hyde's transactions were other
than legal.The sections of the code in question
provide that applicants for school
lands shall file affidavits declaring that
they are bona fide selections and that
the descriptions of the land must be
made from the personal knowledge of
the applicants. A number of witnesses
have testified that scores of affidavits
and applications were signed by
friends of Hyde's janitor and barber,
who had subsequently made transfers
to Hyde.Today, Heier, the government law-
yer, handed Diamond a number of let-
ters and asked if he (Diamond) had
written them to Hyde. Diamond ad-
mitted largely with the subject of calling
the attention of the Secretary of the
Interior to the laws of this State in
show that by the strictness of the
diamond's selections must have
been valid. The letters apparently
show an intimate knowledge with the

FOR PROPERTY PROTECTION.
IN THE ASSOCIATED PRESS-P.M.]
SAN FRANCISCO, May 4.—Trustees
of the four reclamation districts on
Andrus and Brannan Islands, comprising
10,000 acres of swamp lands, met
in convention today and agreed to take
steps toward establishing a uniform
grade of levees for the protection of
the property.The districts, named, extend from
Walnut Grove to Rio Vista, on the Sac-
ramento River, and are all in Sac-
ramento county. The extent of the levees
is about forty miles. Heretofore, each
district is at the mercy of the others,
when one is flooded the others are
under water. A failure to keep up the
levees in one of these districts acts
adversely to all the others.It was agreed that the levees should
be raised to a height of fully five feet
above the level of the water, so that when
the water reaches two months ago. At
that time, the flood rested two feet
over the wharf at Isleton and all the
islands were flooded. It was voted to
make a survey of the islands and report within thirty
days a price grade for the protection of
the property involved. The cost is
estimated at from \$40,000 to \$60,000. An
extra convention will be called as soon
as Engineer Crew's report is ready.SUDDEN DEATH SUSPICIOUS.

"LOST IROQUOIS BABY."

The mystery of the "Lost Iroquois
Baby" was solved today, when Dr.
Charles Brydges brought suit to com-
pet with William E. Dee, a wealthy con-
tractor, to pay a bill of \$2000 for at-
tending his sixteen-months-old daughter,
Margaret Dee. Persistent reports
have been heard of a baby found in
a mass of the dead and dying at the
theater fire and carried away by an
unknown person, but efforts to trace
the child were unavailing. Dr. Brydges
claims the lost child was Margaret
Dee, pulled by him from under
the pile of dead bodies in Thompson's
restaurant. Dr. Brydges took the
little one to his home, where she
died two days later, despite his con-
stant effort to save her life. Dee claims
the fee asked is exorbitant.DIED FROM OPERATION.

Pacific and the main line of the Union
Pacific. Speaking of general conditions
as he found them throughout the
West, Harriman adopts a tone of con-
servation, but confesses that he feels
much more hopeful and cheerful over
the situation than he felt on his re-
turn from a somewhat similar trip
last fall.He said: "The Southern Pacific has
not reached the end of its extraordi-
nary expenditures, although I may say
we see the end of them. Extraordi-
nary expenditures on this line will con-
tinue until all our light rails on the
main line are replaced with heavier
ones, and until our terminals are pre-
pared to look after business on the
system at present and to meet new
business that must develop. I con-
sider this policy necessary. There are
some roads nearer home that are
paying now for their failure to pro-
vide adequate terminal facilities
against development of their business
and I do not intend that our railroads
shall pay for similar neglect in the
same way."Harriman declined to talk of North-

cuse for Not Striking.Trouble on Santa Fe Almost
Over—Chicago Outrage.BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, May 4.—[Exclusive Dispatch.] Over 2000 carmen of the United Railroads voted at an early hour this morning not to strike. They accepted the terms of the United Railroads, which do not differ from those rejected last week. The only real concession made was that the union shall be notified when a man is to be discharged and shall have the privilege of investigating the case before his final removal.

Major Schmitz, in order to escape the responsibility which a strike would have thrust upon him, secured last Sunday morning, a three-days' truce, and the result of this war that the United Railroads made several minor concessions, which gave the union leaders an excuse to abandon thoughts of a strike.

The real facts are, the union leaders found the United Railroads perfectly prepared to run cars and a firm intention to call upon the Governor for State militia as soon as the Mayor refused aid. Such a course would have not only broken the strike, but would have killed the Carmens' Union, as well as Mayor Schmitz.

The new compact lasts for one year, when the whole trouble will come up again for settlement.

PEACE IN SAN FRANCISCO.

BY THE ASSOCIATED PRESS.—A.M.]

SAN FRANCISCO, May 4.—The street cars are running as usual today, and, in accordance with the agreement reached early this morning, will probably continue to do so without interruption from labor troubles for at least a year. The practically unanimous decision of the carmen to accept the amended terms of the company renders any further differences improbable, as every question at issue has been thoroughly discussed and settled.

The rate of wages agreed upon is as follows: Twenty-five cents an hour, with 30 cents for overtime for first-year men; 36 cents an hour with 31 cents for overtime for second-year men, and 27 cents an hour with 32 cents for overtime for all platform men for whom the company's employ more than two years. No deposit is to be required by platform men.

In a clause added after a long consultation between Major Schmitz and the officials of the United Railroads, the company reiterates its agreement not to discriminate against union men, either on account of their affiliation with the union or on account of participation in discussions or differences arising out of controversies with the company.

It is further provided that when any member of the union shall be discharged, except for failure to register fares, the president of the union shall be notified and the case shall be taken up with him. The carmen in question, the company's officers of the company in charge of employment and discharge of men. This addition was made conditional on an agreement by the union that the contract be for one, two or three years.

Construction on buildings, sidewalks and other works will be paralysed as soon as the present master agreement is made in the fall.

The materials furnished by the stone, lime and cement men constitute the basis of all building and sidewalk construction.

Structural Iron Workers Strike.

PITTSBURGH, May 4.—[Exclusive Dispatch.] A strike was declared today against the American Bridge Company by the International Bridge Workers. About six hundred structural workers, with thousands of laborers and engineers, will be affected. The strike is caused by hiring thirty-five non-union men.

General Discrepancies.

WASHINGTON, May 4.—The Director of the Census has prepared a statement explaining the difference between the number of male and female American-born Chinese in the United States. The returns of the Sixteenth Census show that of the 2016 Chinese claiming American nativity 861 were male and 2383 females. The director expressed the opinion that this discrepancy is due to the fact that many male natives of China have fraudulently secured admission as American-born.

In many places union machinists have gone out, but their positions will all be filled by the close of the week, say the officials.

In Topka, the shops seem to be running up to their old capacity today, and in the machine shops the strike is undoubtedly over, as the railroad company, nor the strikers are asking for concessions and no reports of violence are made.

SAM PARKS DEAD.

END COMES AT SING SING.

BY THE ASSOCIATED PRESS.—A.M.]

TOPKA (Kan.), May 4.—Sam Parks, the New York labor leader, who was sent to Sing Sing prison after his conviction on a charge of extortion, died in the prison today. He had consumption at the time of his conviction and had failed rapidly since he was sent to Sing Sing.

Parks, after his first conviction was brought to trial again, August 27, last. On a second trial, he was sentenced to prison on September 5. After his second conviction he was brought back to the prison, November 6, to serve a term of two years. He was at first put to work in the prison kitchen, but his condition became such that he was admitted to the hospital and was under treatment there up to the time of his death.

bakers, imported from St. Louis to all the places of strikers, are alleged to have been kidnapped by members of the Chicago Bakers' Union. The men arrived in Chicago and started in a body for the plant of the Schultz Baking Company, where they had been promised employment.

When within half a block of the shop they were suddenly surrounded by several hundred strikers and sympathizers. The strikers warned the newcomers not to accept work at the workshop. Some of the non-union men insisted, however, and a fight started. A riot call was sent in, but when the police arrived the crowd had disappeared. Only two of the St. Louis men had succeeded in reaching the Schultz plant and the twenty-five others had been spirited away.

SHIPYARDS TIED UP.

BIG STRIKE IN NEW YORK.

BY THE ASSOCIATED PRESS.—A.M.]

NEW YORK, May 4.—All the large ship yards in the metropolitan district except that of the Boston Drydock Company in Brooklyn and the yard of Lett & Martin in Hoboken, are tied up today as a result of the strike of the boilermakers.

Five thousand men are involved and workmen of other trades may be affected. John McNeil of Kansas City, international president of the boilermakers, authorized the strike. The organization is said to have \$250,000 in its relief fund, and the twelve local lodges are also well supplied with money.

The yards and shops affected are those whose owners are members of the New York Metal Trades Association, which body yesterday refused to grant the boilermakers' demand for the closed shop and the abolition of walking delegates to all shops and jobs.

ORGANIZE FOR PROTECTION.

CHICAGO MANUFACTURERS.

BY THE ASSOCIATED PRESS.—A.M.]

CHICAGO, May 4.—Building operations in Chicago will be retarded seriously unless the stone, lime and cement teamsters make terms with their employers. The drivers started their fight for higher wages by calling out on two concerns. The employers, driven to organize to protect themselves, have now declared a lock-out.

The dealers met and formed the association of manufacturers and dealers in building materials. All the leading concerns in the city were represented. The organization has been unanimous in its vote to close every plant today, pending a settlement. The stone and lime teamsters, who have been receiving \$2.50 a day, demand \$2.50.

THREE KILLED IN RIOTS.

TROUBLE IN BUENOS AIRES.

BY THE ASSOCIATED PRESS.—A.M.]

NEW YORK, May 4.—Three persons were killed and probably 100 wounded in the riots last Sunday, says a mail dispatch from Buenos Ayres. Argentina.

The trouble grew out of an encounter between the police and the federation workmen, who were parading the streets in celebration of Labor Day. Some of the workmen molested women who were on their way to a tram car. When the police intervened to protect the women, the police, who shot into the air, a fight ensued, resulting in one policeman and two rioters being killed.

CHICAGO, May 4.—[Exclusive Dispatch.] Refusing to arbitrate their imperative demands for an increase in wages, the Lime, Stone and Cement Teamsters' Union, numbering 400 have forced the building material dealers to close their business for self-protection, and 70,000 artisans and laborers employed in the building trades will be thrown out of work within twenty-four to thirty-six hours.

Construction on buildings, sidewalks and other works will be paralysed as soon as the present master agreement is made in the fall.

INTRIGUES AT THE CAPITAL.

BY THE ASSOCIATED PRESS.—A.M.]

SEOUL, May 1, 5 p.m.—[By Asiatic Cable.] (Delayed in transmission.) A customs officer at Sang Jun, named Olsen, a Norwegian, reports that many Koreans who are naturalized Russians accompanied the scouting expedition of Cossack cavalry as interpreters, all being well received by the local officials. The captain of the Cossacks, after personally firing a custom warehouse, accompanied by a party of soldiers searched the office, which he was finally persuaded not to burn down. When it was explained to him that the property was Korean and not Japanese, he threatened to arrest Olsen as a Japanese spy.

English missionaries who have successfully interceded with the civil authorities to Vladivostok have been urged to notify the Governor of Han Heungdo that Russia is Korea's true friend and to warn Korean vessels not to enter Vladivostok harbor, which has been extensively mined, except during the hours of noon, also to request the people to aid the Russian troops with provisions and guides. Yi Hui Yung, Minister of Foreign Affairs, has urged the Cabinet to dismiss Yip-Pom Chin, Minister to Russia, on account of his persistent insubordination. He is also charged with being a noted Russophile, and instrumental in inducing the Emperor to take refuge at the Russian legation in 1896.

THE YALU BATTLE.

Although the Japanese have been successful in the first important land engagement, it does not appear that they have thereby gained any great advantage or inflicted any serious loss upon Russia. The Japanese victory seems to have been due principally to the advantages of superior numbers and heavier artillery. With these important factors in their favor they were able to drive the Russian forces from their entrencheds on the heights of Kulecheng and Hu Sen, but not until they had met a stubborn resistance. The Russians finally retreated in fairly good order upon Feng Wang Cheng, although their losses of men, guns and horses were considerable.

The bravery, heroism and determined fighting of the Russians under Gen. Zassalitch and their magnificent stand against overwhelming odds, furnished a thrilling spectacle that will always be remembered as one of the notable scenes in the annals of war. As near as can be determined from accounts thus far sent, the Russian force actually engaged numbered between 8000 and 10,000 men, as against upwards of 35,000 Japanese, the flower of the Mikado's army at the Yalu. It was a desperate situation, but one which the Czar's soldiers met with consummate courage and remarkable success; for the Japanese loss in killed was about double that of the Russian loss. Gen. Kuroki's reported success was purchased at such cost as to make it virtually a Russian instead of a Japanese victory. Russian prowess, tried to the utmost and not found wanting, snatched victory from what at first seemed sure defeat.

No one can fail to be thrilled by the accounts of the glorious and successful fight made by the Eleventh Regiment of the Russians. Greatly outnumbered by the enemy, that regiment, with the priest bearing the holy cross at its head—Christianity advancing against paganism—with bands playing and bugles ringing, made a desperate bayonet charge and cut its way out of its serious position, leaving scores of the enemy dead on the field and bringing great honor to itself and to the flag beneath which it fought so well.

The battle was in these and many other respects a notable one, and demonstrated the strength which comes to the arm of him who has right upon his side. If the high-purposed bravery, the courage and efficiency of the Russian soldier, as well as his reliability in time of great danger, needed any demonstration, it has been given in the achievements of the Russian forces at the Yalu.

It was evidently not in accordance with Gen. Kuroki's plan of campaign that a severe land engagement should be precipitated on the banks of the Yalu upon the crossing of that stream by the Japanese. It is stated in a dispatch from St. Petersburg that Gen. Zassalitch, commanding the Russian forces at Kulecheng, and Hu Sen, had specific orders to avoid anything like a general engagement, and this statement seems to be borne out by the inferiority of the Russian strength in point of numbers, as compared to that of their opponents. Information given out by the Russian General Staff is to the effect that the entire force of Gen. Zassalitch at the Yalu consisted of only about 10,000 to 12,000 men, of whom 2000 did not participate in the engagement, and thirty-two guns, while the Japanese had upward of 35,000 men and 160 guns, in addition to sixteen 12-pounder siege guns landed from the gunboats. Certainly, if it had been the intention to make an effective stand against the Japanese advance the Russians would have been better prepared to defend their position.

An officer of the General Staff sums up the case by declaring that "it is like Gen. Kuroki's luck that Gen. Zassalitch should be such a headstrong commander." This is perhaps a rather one-sided view of the matter, for it appears from another dispatch that Gen. Zassalitch was under orders to make the crossing of the Yalu as costly as possible to the enemy. That he carried out this part of his orders with thoroughness is evidenced by the report that the Japanese losses were between 1000 and 2000 men. At all events, Gen. Zassalitch is not likely to be pursued very severely because of his "headstrong" conduct, for the determined stand which he and his men made has excited general admiration.

the people in the Assembly and in the Senate. He may be said to have been one of the very foremost organizers and largely the manager here of the last State campaign. When he and a few other stalwart Republicans began the movement for a reform in the State administration there was no anti-administration organization, no funds and little hope. Persistence, good management and a fearless disregard of calumny and threats alike, finally resulted in an organization of the party forces which brought about a revolt against existing conditions and spread independent opposition to the machine so thoroughly abroad throughout the State that George C. Pardee was finally landed in the Governor's chair.

Senator Bills is a Republican. He represents the whole party, not a fraction of it. He is a clean man in politics, keeping always clear of corrupting alliances and bitter factions, which always betray the party when they fail to control its actions in politics. If Southern California generally will unite on Senator Bills it will be an easy matter to secure his election by the State Convention, and thus the Republicans of the State will be fittingly represented in the national councils of the party, all his influence being for President Roosevelt's brand of politics, clean, straightforward, fearless; and his actions will be absolutely untrammeled by any influence of any machine politician or factional divisions of any kind. President Roosevelt's own uncompromising integrity, his loyalty to public interests, his independence of cliques, are the elements which make him so strong with the rank and file of the people. Let us send the Roosevelt brand of men to renominate the President and build a strong platform for the party to stand on. Let the Roosevelt brand of Republicans rally around Senator Bills and draw their friends to him and Southern California will be honored in her representative at Chicago.

The Japanese advance into Manchuria will be an altogether different proposition from the advance in Korea. In addition to the constantly increasing transportation difficulties, there will be the more serious difficulty which Gen. Kuroki will interpose. It is not to be supposed that the opposing armies will continue to meet on terms so unequal as those which favored the Japanese at Kulecheng and Antung. The land fighting has not yet begun. When it does begin in good earnest, the Russian army will give a good account of itself.

A WAY TO LOSE—A CHANCE TO WIN.

The action of the Republican State Convention, which meets at Sacramento, May 18, will be mostly of a perfunctory nature. There will not be a delegate there from any part of California who will not be thorough and through a Roosevelt man. For that matter the national convention at Chicago a month later will meet merely to register the decision already reached, reached long ago by the whole Republican party with but few and unimportant exceptions. The whole thing is an accomplished fact today, and all there will be to do at Chicago will be the shouting.

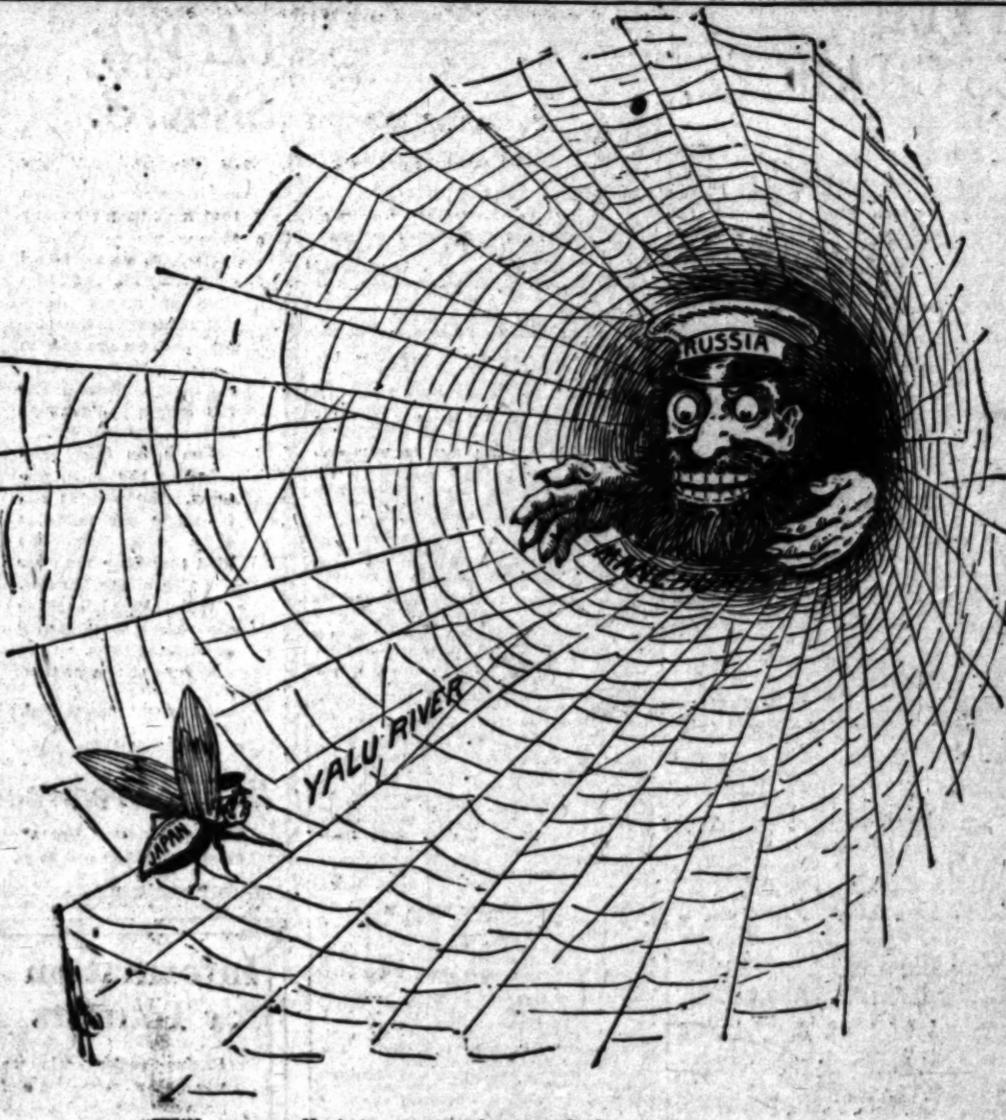

For all this, there are minor interests to which we should just now give earnest heed. The State is entitled to four delegates-at-large, and while these will go merely to register the will of the people, there is a large measure of political honor attaching to the positions. This honor is big enough to go all around the State and give each section its due share. No one will contend for a moment but Southern California is justly entitled to a fair share of this honor. Every county south of Tehachapi is safely Republican, several of them by large majorities. Los Angeles county—not infrequently carries the Republican banner for the largest majority of any county in the State. For this reason it is generally, not to say universally, conceded in this part of the State that the delegate-at-large to the national convention to come from Southern California ought, in fairness, to be a resident of this county.

It is more than certain that San Francisco will claim at least two of these delegates. We do not wish to be captious, and say that the metropolis, being an uncertain quantity in politics, and seldom giving a very decisive Republican majority, is claiming too much. Let San Francisco have two of the delegates-at-large. Let one come from the great San Joaquin Valley, if that section, seen fit, to put forward one of the distinguished Republicans from that section. Or let the honor go north of the Sacramento, if the North sees fit to present a qualified person.

Los Angeles county has a number of loyal, stalwart Republicans of the highest standing in all respects, who would worthily represent the State in the national convention. There are but few of these who desire to seek this honor. There are some who would sacrifice their personal interests and ease to make the journey to Chicago and represent our citizens. There is sure to be a contest more or less sharp for the honor, and it, therefore, behoves the Republicans of Southern California to select a fitting person to be presented at Sacramento. By uniting on one person—if he be the right one—we can gain the victory. On the contrary, by dividing the South may lose entirely in the contest for delegate-at-large.

There is one citizen of the city of Los Angeles who will be universally conceded to be a fitting representative of the Republicans of the South. He is fitted to bear this honor because of his high personal character, because of his loyalty, stalwart Republicanism, because of his many high services rendered the party, because of his experience in the ways of deliberative bodies and because he is a winner in politics. That man is Hon. Robert N. Bills, who has done good service to the party and to all

the people in the Assembly and in the Senate. He may be said to have been one of the very foremost organizers and largely the manager here of the last State campaign. When he and a few other stalwart Republicans began the movement for a reform in the State administration there was no anti-administration organization, no funds and little hope. Inasmuch as several thousand soldiers have already been killed in the Yalu River fighting, it would appear that the "dead battles" scheduled for September have either advanced their dates or are doing some very special rehearsal.

This year, however, the crop promises well.

Both sides will be in full swing. Last year planting was delayed because of the late rains, which made the harvest much later than usual, and for the fact that there were no early rains in the past season the grower was in great danger of being caught in the rain. This year, however, the crop promises well.

POLITICAL

NEW LEADER
IS BETOUSKI.

Succeeds Dan Neuhart as a Hearst Manager.

All the Old Buses Left Off the Delegates List.

Tombstone Cutter Assumes Neuhart's Crown.

SO SMALL TO PICK (Ind.) May 4.—A poor boy was chosen yesterday! He showed that there was no unseemly wrangling over Dan's defeat at the primaries. The Hearst crowd tactfully chose a tombstone dealer to be boss in Dan's place yesterday.

Now definitely done! Tombstones for grief!

Hall Betouski—the new Dan-holder of the free soup ladle!

Finding themselves with every one of the Hearst leaders ditched and not able to go to the convention, the gang got together yesterday, in alarm, and held a council of war. It was practically agreed that Martin Betouski shall march the Hearst gang at the coming State convention, in Dan's place.

Dan was not a happy, chatty little devil yesterday. The Hearst push was on. What alarms them is that, while all the Hearst bosses were defeated Tuesday and will not be at the convention, Decker, the violent anti-Hearst man, will be there to see he will break his word and they don't know what to do about it.

Yesterday, this sacred meeting was held to see what could be done.

They can't afford to do it for someone else who can do this better, though the convention and put a muzzle on Decker.

Martin Marsh was suggested. The trouble with Marsh was that his feet are too cold.

Marsh claims to be one of the original Hearst men; but when he wants to make a real Hearst demonstration, he gets off in a far corner and whispers, "Hah hah!" under his breath and immediately adds doubtfully, "Well, I don't know about that."

They decided that Marsh wouldn't

do after talking of this one and that. It is said that Martin Betouski, the tombstone dealer who brought out Ed Kean for Councilman and is accustomed to dealing with dead ones, will be sent to help the free soup ladle in the convention.

That was not the fiercest question brought before the house, however.

What on earth should they send to the national convention?

The candidates who have been invited to nominate are up to go as delegates to the national convention.

Marsh, who wanted to be delegate, was beaten at the primaries, and Decker, who thinks the Hearst and anti-Hearst men are "Jeffersonian principles."

The huge joke was named by the council of war to take the doctor's

J. Harvey McCarthy, the fat-rich artist, was another who was thrown out. He will butt in anyhow and try to get the State convention to elect him as an outsider. His tender was found a backer at that council of war yesterday.

Tom McCaffrey, who with Eddie Morris overthrew the canines ticket in the seventy-fifth, was one of the blue circle who considered the matter. He is a friend of McCarthy's and insisted that the delegation from this city be invited to support McCarthy as a delegate to the National Convention.

He it was that a sad requiem was chanted over the political remains of poor old Dan and the free soup ladle handed to the tombstone man.

NOTE.

The Fourth Ward Republican Club will meet Friday evening at No. 1562 West 11th street. The call is issued by the president, George L. Cochran. The Frogs Club will celebrate to-night with an informal smoker at the old meeting room on Spring street. The meeting part of the affair is that there will be speeches.

DERKUM'S WORK.

Los Angeles Boy Fills Responsible Position in Island of Rombon, Philippines.

Adam C. Derkum, a popular young man of this city, who departed with his wife several months ago for the Philippines Islands to accept a position in the educational work, has written to friends here of the situation in which he and his wife are located.

Mr. Derkum has the position of supervisor of municipal schools on the Island of Rombon, and several of the barrio schools, his work covering a large territory. Mrs. Derkum is teacher of English and physical culture in the High School at Rombon.

Mr. Derkum says: "Far from finding any real difficulties, we have found it pleasant and healthy. Living expenses are not high, and help is cheap. One can have a retinue of servants, and altogether this will not exceed \$35 per month. Of course, this is the only of the provinces in the city of Manila is much more expensive."

On their trip to the Philippines Mr. and Mrs. Derkum were aboard the steamer Maru, and at Honolulu the captain was ordered to hasten into San Francisco because of the probability of war. At Yokohama the ship was ordered to Kobe, and there it was transferred to the Japanese government for service in the war. The passengers were placed on board the steamer Shawmut. This change saved the Derkums several days.

CLAIRVOYANCE.

Dr. Alex. J. McIvor-Tyndall will talk on "Clairvoyance and Mediumship" at the Hotel New Sunday afternoon. He will explain the difference between these two phases of spiritual power and tell of the laws governing each. Demonstrations both interesting and entertaining will follow the lecture.

A Successful Method.

"Senator," said a reporter, "are you getting up an article on 'How Men Propose.' Would you mind telling me something of your apparent successful method?"

"Certainly," replied the genial Senator. "The method I employ in my after-dinner speeches is to stick to the old story." (Town Topics.)

Trimmings at half

We've gone through the stocks and sorted out the single and odd pieces to six-yard lengths—of Persian bands; edges and medallions; appliques; jets and spangles; trimmings; fancy braids, etc., in black, white and colors. Clean, stylish, up-to-date trimmings, but we can't afford to have our stocks cluttered up with short lengths. So we put them out at just half actual value, and they'll be gone in a jiffy—you won't be able to resist such values.

50c trimmings..... 25c yard \$1.50 trimmings..... 75c yard
\$1.00 trimmings..... 50c yard \$2.00 trimmings..... \$1.00 yard

And so on up to the 85c sorts at \$2.50 a yard.

\$1.50 to \$2.50 Parasols at \$1.00

A fortunate purchase on our part enables us to offer parasols at a price that would tempt you to buy at the CLOSE of the season.

The lot of silk and broadcloth materials—in plain colors and self-colored effects, and solid colors with fancy borders—the poorest of the lot will worth \$1.50, many that would be \$2 ordinarily, and some \$2.50 values. Splendid variety of colors. On sale in our new parasol section.

"Old Bleach" linens

No other store in town has the genuine "Old Bleach" linens—and there is no other make that equals it.

Now, if you're buying linens to embroider, can you afford to get an inferior grade? Would be like mounting diamonds in brass.

Old bleach linens in—

36-inch width..... 75c, 85c, \$1.00
45c inch width..... \$1.00, \$1.25, \$1.50
54-inch width..... \$1.25 and \$1.50
72-inch..... \$2.00 and \$2.25 90-inch..... \$2.50

Special 27-inch linens in taffeta and canvas weaves—the regular 6c and 75c goods—at 65c yard.

(Lines Dept.)

"Ostermorn" mattresses

Ever sleep on an "Ostermorn"? No other mattress is so elastic, so clean, or so durable. The very best hair mattresses are the only ones that compare with an Ostermorn in durability. And as to cleanliness—well, how can a hair mattress be clean? \$1.50 for 6 in. width. They're sold nowhere else in town.

Chance to save on seasonable silks

The demand for black silks never diminishes. Good reason. What other fabric blends elegance and serviceability so evenly? And because of their everlasting popularity they are very, very seldom sold under their established prices. But here's an exception:

Today and tomorrow we will sell 21-inch black Peau de Soie of our regular \$1.25 grade at \$1 a yard.

24-inch black messaline in small dots and figured designs—especially desirable for travelling, hats and suits—at \$1 a yard; regularly \$1.25.

Also have a lot of 27-inch Peongees in gray, navy and natural—immensely popular for shirt waist suits—at \$1.00. They would be excellent value at \$1.25.

Reductions USUALLY come when an article's selling season is on the wane. Here's an instance where prices are liberally reduced just at the time you're in greatest need of them:

How Rice is Cooked for Japanese.

John Hollins, colored, staying at a small hotel near the corner of Second and San Pedro streets, was shot bleeding from a knife wound in the left temple. He stated that he had been stabbed by another negro during a drunken fight on the street and that his assailant had fled after using the knife. The injured man was removed to the Hotel Mandarin, where his wound was sewed up. He was too drunk to be released and was detained. The police are looking for the negro who stabbed him.

Head Split.

A black Pennsylvania junk peddler was brought into the Receiving Hospital yesterday dripping in his own gore.

He was taken to the Hospital by his son, Joe Chucon, a gamin-like little boy who cut him.

The man's name is William Fulmer. He was trying to collect a bill of some sort on Elmira street near River Station and got into trouble with the Mexican who gallantly hit him over the head with an ax.

Mr. Fulmer is a cripple, some of the bones having been cut on his right arm, rendering it useless. No charge has been made yet against Chucon.

Branch Police Stations.

The reopening of the East side branch police station is giving good results, in the opinion of Chief Hammel, and he is eager to establish another in the suburb. It will

ask the Council to furnish quarters for a station on Boyle Heights, one in the Vernon district, probably; one at University and another near Westlake Park. He thinks this is necessary for a proper patrol of the neighborhood and to prevent frequent long trips with the patrol wagon. He thinks a police office and a small jail could be fitted up at each of the points named at small cost, in proportion to the increased efficiency of service that could be given. The Chief will strongly not ask that all these stations be established at once, but he hopes to have the project carried out in its entirety by and by.

Cops Must Slink up.

Chief of Police Hammel donned his new uniform for the first time Tuesday and he makes an exceedingly fine appearance in it. The new chief means to make the city look like Los Angeles, and he will be a credit to the department.

GREETING WITH FLOWERS.

SPECIAL CORRESPONDENCE OF THE TIMES.

SAN BERNARDINO, May 4.—

It was a busy day with the San

Diego railroad officials here on account

of the number of special trains

on the road bearing delegates to the Methodist General Conference. Not all

delegates received the flowers

which greeted those who came

yesterday and early this morning.

With the returning Los Angeles

the railroad committee appointed

the Board of Trade of that city

to greet the delegates here, the general

work along this line dragged on

and the Illinois train arrived all

flowers and fruit collected by

the railroad men.

The ladies of the town soon heard

the dearth of blossoms and

before noon were out for

even loaded down with baskets of

lilies and carnations and garlands

which were the pride of the flowers

and twenty-five ladies assisted in

lecturing and distributing them, but

supplies soon gave out before the

hundreds of delegates.

This was a distribution by the

men of the town irrespective of cre-

re or social affiliations, was one of

the most beautiful sights ever witnessed

here, and made an animated scene

between this one great people

and our missionaries.

"We all know the policy of Russia

in regard to such things. The policy

of that country is not the policy of

the open door. If Russia wins and

comes into possession of the islands

we are afraid that our missionaries

will be working against heavy odds.

The prospects of a Japanese victory

are not more cheering. Who knows

what we have in the past, not only about

our missionaries, but all foreigners.

"I should regard the acquiring of

further territory in the Far East by

either of these nations as a misfortune

to the spread of Christianity.

"On the other hand, the enthusiasm

of the people of the Coast, and that

of tenth of the population of California

is most gratifying.

OVATION FOR COLORED MEN.

The spectacular feature of the

day was the ovation given by the

students from Cliftin University

are five stalwart lads with red

skin, and their first selection a

typical negro song, "What the

Harp You Goin' to Play?" They

impressed the visitors.

CREED REVISION.

THE POT BEGINS TO BOIL.

Already the opponents of the move

ment to revise the amusement clause

of the Methodist discipline, known

as paragraph 45, are on the ground

and are determined that if the

men are let down it will not be

because an active effort has not been

made to keep them up. Harcourt

Peck of Covina and ex-Gov. Powel

of Arizona, were looking over the

city, and a small part of the work

started by the Los Angeles committee

was continued.

The roses distributed early this morn-

ing, but the last of the game

yesterday by the Los Angeles commit-

tee, were withered considerably.

These defects were not noticed by the

delegates, who were delighted with

the beauty and abundance of the flow-

ers.

GENERAL CORRESPONDENCE OF THE TIMES.

SAN BERNARDINO, May 4.—This has been a busy day with the Santa Fe railroad officials here on account of the number of special trains on the road bearing delegates to the Methodist General Conference. Not all the delegates received the flowers welcome which greeted those who came yesterday and early this morning. With the returning to Los Angeles of the reception committee appointed by the Board of Trade of that city to meet the delegates here, the general work along this line dragged, and after the Illinois train had left the flowers and gifts collected by the committee yesterday were distributed.

Yesterday they held a meeting and appointed the following committee to arrange for a reunion and look after the entertainment of the Rust University people during their stay in Los Angeles: Mrs. Annie T. Strickland, teacher in Philander Smith College, Little Rock, Ark.; Rev. Dr. G. O. Smith, General Conference of the Missionary Society; E. H. McElroy and J. Beverly F. Shaw, professors in Rush University.

CONFERENCE, and en route to Los Angeles they formed an organization on the train. The following persons were found to be either graduates or the sons of graduates of the college, with it: Rev. Dr. J. M. Shumpert and Rev. S. A. Cowen, presiding elders of the Mississippi Conference; Rev. Mr. J. W. Davis and Rev. Dr. B. F. Woolfolk, presiding elders of the Upper Missouri Conference; Rev. Dr. G. O. TRAIN ALL IN.

THE DIRECT WIRE TO THE TIMES.

HIGHLAND, May 4.—[Exclusive Dispatch] A. C. Clarke, for seven years secretary for the superintendent of the Southern California State Hospital for the Insane, committed suicide this afternoon by shooting out his brain. The shooting took place in his office.

As to what prompted the secretary in taking his life cannot be surmised unless it was due to two recent ones of which is the recent appearance of articles in the newspapers which stated that at the next meeting of the board of managers his resignation would be asked for. The other is the reports that he has received lately of the failure of mines in Mexico in which he has been heavily interested, which has left the company heavily in debt. That there has been something weighing on Clarke's mind for the past month has been noticed by all the employes who came in contact with him, he having been in a very jovial and happy mood and full of his energy a number of the visitors were driven about the city, and a small part of the work started by the Los Angeles committee was continued.

The roses distributed early this morning, being a part of those gathered yesterday by the Los Angeles committee, were wilting considerably, but these defects were not noticed by the delegates, who were delighted with the beauty and abundance of the flowers, the fragrance of the roses especially impressing them.

CREED REVISION.

THE POT BEGINS TO BOIL.

Already the opponents of the movement to revise the amusement clause of the Methodist discipline, known as paragraph 44, are on the "ground at work" and are determined that if the law is set down it will not be because an active effort has not been made to keep them up. Harcourt W. Park of Covina and ex-Gov. Powers of Alameda, were looking over the scenes yesterday, and it was an easy matter to start a controversy on the subject.

As is well known, the hub of the agitation is in Boston and it therefore becomes pertinent to read in the Boston Globe of April 18, an article headed in those lines: "New feature in Boston Church History—Boston Methodist Church With its dancing and the like, makes a more liberal spirit."

The article reads in part as follows: "This is junior week at Boston University, and for the next five days there will be given a secondary place to the study of the church and its social activities will rule."

"This is an entirely new feature in the history of the college on Beacon Hill, and marks an important change in the policy of that institution. The election of the faculty, the students will build a college, and the like."

For the university authorities have always frowned upon dancing by the students, and all requests for permission to have been refused, but with the election of President William E. Huntington a more liberal spirit has prevailed, and the students have been allowed the same freedom in matters of amusement as is in the case of other colleges.

"Old Baldy" by H. Koch, in cool delicate grace gives a special aspect to the paintings, with comparative skill; and in "The Meadows" Maria Ney displays much the same feeling for tone.

The work added to the fire of enthusiasm, and many, in fact, most delegates in the conference will read for the first time this morning. A few days later the dance was hotly debated by Rev. Charles A. Cran of Boston's Temple. Boston who declared that when Methodist had had time part it "published his base of honor by flagrantly and unashamedly violating his obligations."

THE BADGE.

BECH-ADMIRED DECORATION.

The badge worn by the delegates to the General Conference is much admired, and is a credit to the committee and honorary Cleveland, who suggested the design.

The word "Delegate" appears in black letters upon a gilt-bound book of white celluloid, on the back of which is the pin. To this is attached a white satin ribbon two inches wide and one and one-half inches long, decorated with the Stars and Stripes and the red field with a white cross, the stripes being in a cluster.

The lower edge of the ribbon is bound together to a ring to which is suspended a medallion of John Wesley, on a ground surrounded by a wreath of oak and laurel in white. "General Wesley, San Fran., Cal." On the reverse of the medallion is a cluster of orange, emblematic of California, and the inscription, "Compliments of Local Ministry, by Bishop [unclear]."

McARIN'S SHOUT.

He also took occasion to criticize the work of the conference, and he said, "The work of the conference is much admired, he hoped to see a material change in the future. His reference to the "Pork" in the work of Preble, and his shout of "Pork" in the work of Preble, were loudly applauded.

He said last night that the meeting will go on.

notch canines were on the benches,
and the average was fully up to grade.
For the number of dogs it is not likely
that many A. C. shows would surpass
the local effort.In the sporting classes an especially
fine showing was present. Setters,
English and Irish, and from the best
strains in the country; some good
pointers, a heavy entry of really ex-
cellent cockers, some spaniels and a
Chesapeake Bay made the percentage
of "bird dogs" considerably greater
than in many shows twice the size.
The terriers, bull and fox, were out in
force and a sprightly entry of other
less popular breeds. Bulldogs were highly
represented but easily made up in
class for their shyness in numbers.
The bigger dogs, such as St. Bernards
and Danes, were perhaps a little scarce;
these however, in the case of the
dainty bichons, were far
more numerous than the
smaller breeds.Oscar A. Trippett, et

makes weak women strong and sick
women well.

\$500 REWARD:

FOR WOMEN
WHO CANNOT BE CURED.Backed up by over a third of a century of
remarkable and uniform cures, a record
such as no other remedy for the diseases
and weaknesses peculiar to women ever
attained, the proprietors of Dr. Pierce's
Favorite Prescription feel fully war-
ranted in offering to pay \$500 in legal
money of the United States for any case
of Leucorrhœa, Female Weakness, Prolap-
sus, Fallopian tube disease, etc., that they
cannot cure. All their cases is a fair and reason-
able trial of their means of cure."I suffered with female weakness about
eight years ago, and was not able to bear
it until I became ill. Dr. Pierce's Favorite
Prescription," writes Mrs. John Green of Davi-
ville, Co. K.Y. "This medicine was recom-
mended to me by Dr. E. C. Ewing, who
told me to take it every day. I have taken
it every day since, and have been taking it
ever since. I feel well and I feel another person.
Refuse all substitutes."Dr. Pierce's Pleasant Pellets should be
used with "Favorite Prescription" when-
ever a laxative is required.Clothes are rightly
reputed to be the
best that a tailor can

them that way, but
I am repaid by en-
joying a steady pat-

of the most particu-
lar men in this city.
It's a steady custom-
er that counts in this
business, so I can
really afford to do
better work than
most tailors.There is another class of benevolent
patriots who try to make up for neg-
lect of civic duties by admitting can-
didly that they are "true good." In
rich and growing cities, predatory poli-
ticians and speculators are the neg-
lect and thralldom of municipal corpora-
tion. But under the American sys-
tem, every community may have as
good a government as it desires and
deserves.New York City, which gave a Tweed,

side by side in that rich soil, and when
they will the "true good" can turn the
scale in their favor. The bane is the
elements of that conglomerate society."But these 'make weight' patriots
practice so persistently the 'negative
virtues of indigence' and are lulled so
constantly by the drowsy music of
self-appreciation that they have no
sense of the value of life, of the nobility
of the race, of the nobility of the

plainly followed the decree of destiny.

TO HAVE RUSSIAN COTTAGE

Mrs. Vera de Blumenthal, the
Russian Countess who a few months ago
came to Santa Monica, expecting to
remain a short time, is so delighted
that she has decided to remain indefinitely.
It is the desire of the
Countess to erect a typical Russian
cottage in Santa Monica and to establish
here a center of Russian hospitality
that will be as unique as it is charming.The bane and the antidote grow
side by side in that rich soil, and when
they will the "true good" can turn the

lecture from the magistrate in which
the parents were severely scored."Our power and our prosperity are
today the greatest in our history—per-

Property Owners in San Fernando Valley Claim Los Angeles is Acting in Violation of Constitution of United States—City Prepares to Fight Back.

The city of Los Angeles was yesterday made defendant in two suits filed in the United States Circuit Court by land owners in the San Fernando Valley, to quiet title to the water that flows under the property. The contention is raised that the city in attempting to dispossess the land owners of their right to the water flowing beneath the surface is violating the fourteenth amendment to the Constitution of the United States.

In each case are twenty-five complainants and the array of legal talent employed by them gives promise of a battle royal on the part of the land owners in the valley to regain possession of the water rights that were lost when the incorporation of the celebrated Pomona-San Bernardino water rights case which was fought through the Supreme Court of the State and finally decided in favor of the city by the Supreme Court of the United States.

FINANCIAL.

BANK CLEARINGS. Bank clearings yesterday were \$1,469,490.15, against \$1,179,763.47 for the corresponding day in last year and \$899,763.55 for the same day in 1902.

AN AUTHORITY ON BANKING. In a contribution to the Manufacturer's Association, Baltimore, Mr. Atkinson, of Boston, discusses the need of savings banks in the South, and thinks the installation of such banks a better way than permitting national banks to make real estate loans which he calls a dangerous move. He shows, after the immemorial use of reasoning that the opening of a commercial bank must be "quick" subject to conversion into cash at a moment's notice, etc., and that "an investment of capital in a bank is not an investment on real estate, long date not subject to call, unless note of the conditions named. The more urgent and sudden call upon banks for cash, the less able will be to realize cash and dispose of mortgages than is usual. These properties may be perfectly safe as investments, but no safer on the average than other bank assets have proved to be."

BANKS AND BANKERS. The banks are now in real estate, but to overcome the fact that most companies are still subject to call upon them note of the conditions named.

THE BANKS AND BANKERS. The banks are again firm, with a flat 22-cent price, although in some isolated cases, jobbers might shade this a half cent. Pass the butter.

AUSTRALIAN ONIONS. Australian onions range in price from 10 to 15 cents, but large offerings of green onions prevent heavy buying.

ROCK COD AND HALIBUT. Rock cod and halibut are still the most familiar pictorial delicacies on the market, with the demand far greater than the supply.

FOOD. Bananas are a feature of the market, and prices are still hard at 5 cents.

RUBBISH. Rubbish finds a slow sale owing to heavy consignments of berries which are of fine quality and very low in price.

THE POULTRY MARKET. The poultry market is bare of hens, but overstocked with young roosters and fryers. The prices are still firm at Monday's quotations.

Owning to light rains and the necessity for harvesting early, the black-eyed pea is in a great measure, supplied from the Los Angeles and Los Angeles counties the local stocks of black-eyed are not held firm. Buyers are not anxious to load up heavily on this variety and there exists a strained position. The quotation may be changed shortly.

(NEWS REPORTS FROM TIMES CORRESPONDENTS.)

BONE THIEVES PAY FINES.

STEALERS OF SKELETON GET THEIR PUNISHMENT.

Students Who Committed the Offense Are Charged Only With Malicious Mischief—Case Against Deputy Assessor Doud Grows More Serious.

PASADENA. Office of The Times, No. 50 South Raymond Avenue, May 5.—Robert Hobson and Karl Elliott, the two Throop Institute students, arrested on complaint sworn to yesterday by Secretary Coleman, of the institute, charging them with the theft of a human skeleton, or technical malicious mischief, had a hearing yesterday afternoon in Police Court. Hobson was fined \$10 and Elliott \$5, which they paid.

The charge against them has been burlap.

The boys confess to having broken a window to enter the skeleton's home.

Had there been meat on the property

the boys might have been kidnaping.

The wanted condition of the specimen

prevents that.

When put through the sweat box by the police detective who have been working on the case for some time, the boy not only owned up, but implicated a third youth, Ernest Wakeham of Santa Ana, who is now confined at home with a similar offense.

There is no evidence that they did the bone grabbing in the way of revenge. Hobson's parents live in Irving, Ill., and he has been roaming at No. 39 Lincoln Avenue.

We have not learned the name and address of Hobson's parents.

He has been taken to the hospital for treatment.

He is a boy of 18, and has

been working at the Pacific Electric car barns since his expulsion. The sick boy bears a good reputation, and the usually does not entangle him in a part of the case.

He has been doing detective work on the part of Chief Freeman, Capt. Austin and their assistants unearthing literally the mystery.

The boys took the skeleton from the laboratory and left it in the room, when a typewritten letter informed the faculty where it lay buried, across the street from the school. There the bony back was found, but where none knew.

The letter was written by Hobson

and was traced as the writer.

NOT AFTER DOUD.

CHARGE AGAINST Deputy Assessor Doud, in effect that he has been overfamiliar with the fair sex while going his rounds of houses, will not do. In response to Assessor Ward's demand for written charges and affidavits, H. E. Sutcliffe, J. R. Mason and George Robinson have gotten out even accusations made before notaries public which will put a graver taint on the writer.

The next series of the affidavits is that of Mrs. Hobson of No. 225 East 7th street, wife of an employe of the Hobson Company, who is said to be in the same condition and was one of the girls alleged assault of Mrs. Mason.

Miss Hobson, April 27, and the door was opened, entered without knocking, closed the door and placed his coat on it; that having heard the door open, he asked to see a picture of his father; that she stepped out of his bedroom to get a picture and he followed unnoticed and hugged her; that she then told him to leave and left the room; that he followed her to the door and promised to apologize and begged her to tell her husband, but that he followed him away and that he did not go till the order was repeated.

VOTERS ARE SLOW.

W. C. Cooley, who has established a home with W. T. Grimes next to the former, where he daily receives the great register, says the voters are not backward in coming forward.

They have signed out for the last month, 900 in the city, including Pasadena, North Pasadena, South Pasadena, Cooley says they don't seem to understand that they have to register before September 10 in order to get a vote in November.

He asked whether they registered two years ago, and was told that he will find it worth while to do so.

SHORES STAND FAST.

The Afro-American Council will meet this evening at the African Methodist Episcopal Church for the annual election of officers. E. L. Gaines, a planter, is elected for president, to succeed Dr. J. C. Johnson, the incoming incumbent. The members are unanimous in their support of the work. They also plan for the future a reception in Woodland Park for the eighty colored delegates to the Methodist Conference now in Los Angeles.

BANK OFFICIAL.

A meeting of the directors of the First National Bank, held yesterday afternoon, Gust H. Bauer was elected president. He will take an active part in the work of the bank, and the president, Mr. Perry, who is about to absent part of the summer, at a meeting a regular dividend of 5 per cent was declared; also an extra dividend of 2 per cent.
